Accomplishments

- Built and maintained strong relationships with clients, including their CPAs, CFO, and tax attorneys by providing accurate financial reports. This saved up to five days of editing accounting transactions and re-submitting financial reports.
- Improved expense automated entry leading to 75% more accuracy and 50% completion of end of month processes
- Continually produced previous monthly financial reports by the 15th of the month.
- Located payroll taxes were being overstated for over 18 months, before business tax returns were prepared. This prevented the company from possible audits and reduced the cost filing amended tax returns
- Compiled financial reports for 10 board members and 5 investors.
